

# **V** Vulnerability **A** Assessment **P** Penetration **T** Testing

**The Ultimate Next-Level Vulnerability and Penetration Testing to Safeguard Your Organization.**

Don't wait for a breach - Take control of your security. "It takes 20 years to build a reputation and few minutes of cyber-incident to ruin it."

Find hidden security weaknesses with Lumiverse Solutions' Managed VAPT service:

- Engage in cutting-edge vulnerability and penetration testing to dive deep into your security systems.
- Gain industry recognition with memberships in governance bodies and ISO27001 accreditation.
- Benefit from a configurable managed service framework that offers continual vigilance, on-demand brilliance, strategic fortification, swift reinforcement, and long-term partnership.
- Leverage integrated data analytics and trend analysis capabilities for valuable insights.

## EXPERT SOLUTIONS

Lumiverse Solutions Managed VAPT combines expert manual and automated testing, leveraging Over a Decade of experience for superior quality, efficiency, and continuous improvement. Our dedicated customer success manager provides tailored support and a global reach with local dedication. Optional expansions into the Secure Software Development Lifecycle are also available.

## YOUR SECURITY, YOUR WAY

In the face of escalating cyber-attacks, secure your business with Lumiverse Solutions Managed VAPT service, safeguarding your commercial viability and integrity. Our VAPT process proactively identifies vulnerabilities, exposing and addressing potential weaknesses before they can be exploited. Receive expert recommendations to strengthen your defenses against evolving cyber threats, ensuring targeted security measures.

## WE UNDERSTAND YOU

We understand the challenges of in-house cybersecurity testing. Organizations often lack the resources and qualified staff to maintain robust cybersecurity programs. By partnering with Lumiverse Solutions, you can overcome these obstacles, benefiting from our cost-effective and consistent testing services. Free up your resources to focus on other priorities while we ensure compliance with industry regulations.

# EMPOWERING YOUR CYBERSECURITY

- 1. Trusted Partnership:** Rely on Lumiverse Solutions as your single, trusted supplier for comprehensive cybersecurity testing.
- 2. Global Presence:** With our presence in the US, Middle East, Japan and Asia, we cater to your specific needs, regardless of location.
- 3. Bundled Testing Services:** Benefit from regular vulnerability scanning, penetration testing, and remediation support, using **state-of-the-art** techniques.
- 4. Expert Security Engineers:** Our team holds relevant clearances and industry qualifications, guaranteeing the highest standards of service.
- 5. Customizable Framework:** Our managed service framework is customizable and configurable to your unique requirements.
- 6. Strategic Remediation:** Receive valuable guidance from a dedicated Virtual Security Officer to enhance your network and software security.

- 7. On-Demand Support:** Access on-demand remediation support, including confirmation testing for fixed vulnerabilities.
- 8. Optional Expansions:** Explore additional services such as API scanning, container scanning, mobile device penetration testing, and IoT-connected device testing.
- 9. Accredited Standards:** Our testing adheres to internationally recognized standards, including ISO 27001 and OWASP.
- 10. Data Analytics and Trend Analysis:** Gain valuable insights and trends to empower informed security decisions.
- 11. Dedicated Customer Success Manager:** A dedicated single point of contact providing expert guidance and support.
- 12. Secure and Resilient Future:** Elevate your cybersecurity defenses with our holistic approach, ensuring exceptional testing services for a secure future.
